Our State—Mrs. Effie Jacobs; read. do and highly respectable, and on that Each one is seen and involuntarily folwhen the eye shifts to the one following. This is true of near buildings. Objects farther away seem to move slower, and those very far off seem to be almost stationary until the whole landscape appears to be revolving round a common center. The un-conscious effort to take in everything produces a rapid lateral oscillation of the eyeballs, as any one can observe by watching the eyes of his fellow passengers. The eye strain is enor mous and is the chief factor in pro ducing car sickness. This can be proved by asking a patient who is subject to car sickness to look steadily to and fro or tilted backward and plain of nausea and vertigo. The treatment consists of advising the patient to avoid looking out of the car hour as long as there is any tenden

> In its most ordinary form the ship' bell clock is a stout, well made clock a good timekeeper, contained in nches in diameter which is mounted on a board that can be hung on screwed to a wall or bulkhead face of the clock, the dial, is of finish serviceable look.

the whole clock has a metallic, solid, apon which the clock is placed, outit, is the clock's gong, with the ham down into it on arms extending and striking on the gong's inner side It is a sturdy gong two or three inche in diameter, and it sounds with a strong, clear, resolute note when th nammer strikes it. On this clock's face you can tell the time in the usual way, but the hours are struck as they are at sea on a ship's bell.-New Yorl

There was no doubt about it. He as very angry when he entered the village grocery store and demanded to ee the proprietor.
"You sold my wife some eggs yester day, Mr. Peavey," he said when the grocer appeared. "Wanl, yes," said Mr. Peavey genial
